

The New Age of Sound **Orthos**

ayon

The Orthos monoblocks provide true balanced or single-ended operation combined with the ability to deliver more than 200 watts per channel. Its powerful and fast bass, expressive and natural midrange, extended high frequencies and dynamic output power result in outstanding life-like performance free of compression effects or dynamic limitations.

Single-Ended Triode Amplification

Ayon's state-of-the art triode vacuum tube amplifiers provide music lovers worldwide with an authentic listening experience in their home environments.

They offer abundant power resources unavailable from conventional designs while fully maintaining and expanding the traditional qualities of the single ended topology.

Absolute tonal neutrality, outstanding dynamics and a so far unknown level of resolution are trademarks of our amplifiers, complemented by an explosively fast and uncoloured bass and high power triode performance.

Their sound staging and ambient retrieval equals the finesse of the legendary low power triode designs while leaving behind their disadvantages of high distortion, coloration and limited dynamic reserves.

Advanced, zero feedback, class A circuitry and cutting edge output transformer design let Ayon triode amplifiers recreate music with irresistible

Specifications:

Class of Operation	Triode or Pentode mode
Tube Complement	8x KT88-B x 6H30
Load Impedance	4 & 8 Ohms
Negative Feedback	0dB
Bandwidth	8Hz-70kHz
Output Power	1x 200 Watt / 1 x 120 W-Triode
Peak Output Power	280 Watt
Input Impedance	100K Ohm
S/N ratio	98 dB
Hum	0,003 V
Frequency Response	10 Hz - 60 kHz/ -2.5 dB
Distortion at 1W	< 0,3%
Inputs	RCA & XLR
Dimensions (WxDxH) cm	34x53x25 cm
