

Vulcan

This mono power amplifier offers breathtaking realism, utmost neutrality, explosive dynamics, astounding resolution and truly realistic bass performance from our acclaimed single-ended triode circuit. The result of a tour de force in the pursuit of sonic realism combined with our leading design expertise in single-ended triodes and advanced technological solutions has quickly earned the reputation of a milestone amongst high-end tube amplifier designs.

Single-Ended Triode Amplification

Ayon's state-of-the-art triode vacuum tube amplifiers provide music lovers worldwide with an authentic listening experience in their home environments.

They offer abundant power resources unavailable from conventional designs while fully maintaining and expanding the traditional qualities of the single ended topology.

Research and development of our triode amplifiers is conducted by a team of renowned experts at our high end manufacturing facility in Austria.

Absolute tonal neutrality, outstanding dynamics and a so far unknown level of resolution are trademarks of our amplifiers, complemented by an explosively fast and uncoloured bass and high power triode performance.

Their sound staging and ambient retrieval equals the finesse of the legendary low power triode designs while leaving behind their disadvantages of high distortion, coloration and limited dynamic reserves.

Advanced zero feedback class A circuitry and cutting edge output transformer design make Ayon triode amplifiers recreate music with irresistible magic and authenticity.

Specifications:

Class of Operation	PSE, Class A
Tube Complement	2x AA62B, 3 x 6H30, 1 x 5U4G
Load Impedance	4 & 8 Ohm
Negative Feedback	0dB
Bandwidth	8Hz-60kHz / - 3 dB
Output Power	55 Watt
Peak Output Power	100 Watt
Input Impedance	100K Ohm
S/N ratio	92 dB
Hum	0,003 V
Input sensitivity	10 Hz - 45 kHz/ 0 dB
Frequency Response	< 0,3%
Distortion at 1W	1 x RCA, 1 x XLR
Dimensions (WxDxH) cm	36x58x25 cm
Weight per unit	40 kg

Finish: black
